Tom's Tips

Wow! Summer is almost here. Temps are rising, air and water which means more people in the water including

detectorist. If you were not at last month's meeting you missed a really good presentation by Jim Thobe on Stingrays. This is the time of year when they bunch up on the beaches and wiggle down in the sand. When you go in be sure to "shuffle" your feet. I have scooted over them before with my coil and still kicked them up with my feet. You can never be too cautious.

We have several new members in the club and I often get asked a lot of questions that I never seem to have enough time to answer all of them properly. This month's meeting will be a question and answer session. This is a good time to share technics with others.

Our May Meeting will be on May 21st due to Bill Jackson's being closed on Memorial Day
